3 year Warranty Helical Brass Gear High strength frame 7.0:1 gear ratio Strike Saver Drag System Forged Aluminum Handle 7.8 oz. 5+1 precision ball bearings

Description

Combining the proven performance of the Ardent Arrow with an innovative flipping-specific design, the Ardent Arrow Flipping Reel utilizes a range of unique features to achieve a true advantage on the water. Lubricated with Ardent's Reel Butter for smooth operation right out of the package, the Ardent Arrow Flipping Casting Reel features a narrowed spool and a fixed line guide, which works to improve casting accuracy with short, repetitive casts.

Backed by Ardent' Strike Saver Drag system and a helical brass gearing, the Ardent Arrow Flipping Casting Reel delivers true tournament-grade performance paired unrivaled dependability. Fitted with a forged aluminum handle for increased leverage, the Ardent Arrow Flipping Casting Reel provides application-specific design that sets the standard for flipping and pitching.
