- Premier Fishing Line Cutter designed for Saltwater • Cuts 150 lb. Braided Line and 250 lb. Mono and Fluoro Lines • Bigger Body and Stronger Blades for Snipping Larger Lines • Easily Cuts Braided, Fluoro, and Mono Lines • 30" Reach with Polyester Tether and Carabiner • Integrated Safety Mechanism • 400 Series Stainless Steel Corrosion Resistant Cutter and Blades • Made in the USA with Globally Sourced Materials

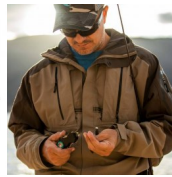

Rotatable Blade
The rotatable blade allows you to cut in either direction. The blade can be rotated 180 degrees to cut in the opposite direction.

Integrated Safety
The integrated safety mechanism prevents the blades from closing on your fingers. The safety mechanism is a simple push-button that locks the blades open.

30" Reach
The 30" reach allows you to cut lines from a distance. The polyester tether and carabiner are included for easy carrying.

Stainless Steel Blades
The 400 Series stainless steel blades are corrosion resistant and can cut through braided, fluoro, and mono lines.

Description

The Boomerang Big Snip fishing line cutter was designed specifically for saltwater fishing. Including, a heavy duty screw free housing for greater salt water corrosion resistance.

The larger size line cutter cuts clean and precise through 150 lb braided line and 250 lb mono and fluoro fishing lines every time.

Integrated blade safety mechanism with 400 Series stainless steel corrosion resistant cutters.

With a Boomerang SNIP Fishing line cutter you'll spend more time with your line in the water and less time looking for your tool.
