Rating: 4.9

Light Weight and Strong Carbon Fiber Construction High Grade 6061 T6 Aluminum Spool with Carbon Fiber Backer Braid Band to Keep Braid from Slipping Strong and Light Air Bail 9+1 Ball Bearings 5.2:1 HIGH SPEED Gear Ratio Machined Handle Sealed Multi-Stack Drag System

## Description

The Ardent C-Force is next generation in spinning reels. The C-Force is light but tough, the frame and rotor are constructed from high tech carbon fiber to give you the strongest and lightest reel possible. The 5.2:1 HIGH SPEED retrieve will increase your productivity on the water, helping you catch more fish. The 6061 T6 double anodized spool is equipped with a knurled spool stop to allow you to tie braid to the spool without the slippage. The sleek black and carbon fiber look will impress all your fishing partners and complement your fishing arsenal. This reel is a must-have for all serious spinning reel anglers.
