Fish Gripper with Sliding Scale 39" retracting tape measure
Stainless Tube Capacity 50 lbs.

Description

No more guesswork when it comes to sizing up those big catches. Integrated spring scale is calibrated for pounds and kilograms. High-grade stainless steel shaft and jaws provide superior durability and corrosion resistance. Heavy-duty jaws open wide and automatically lock when trigger is released.

Other features include an adjustable wrist lanyard and soft-touch textured handle for a sure grip, even when it's wet. The handle grip rotates a full 360 degrees for optimal positioning and control and includes a built-in measuring tape.
